

CLAIMS

1. A hot plate unit comprising:

a casing having a bottom portion and a first opened
5 portion; and

a hot plate arranged in the first opened portion and
including a heating element, wherein the bottom portion
includes a second opened portion.

10 2. The hot plate unit according to claim 1, further
comprising an intake port attached to the casing for
enabling the intake of a fluid.

15 3. The hot plate unit according to claim 2, wherein the
intake port includes a plurality of intake ports.

4. The hot plate unit according to any one of claims 1 to
3, wherein the second opening includes a plurality of second
openings.

20 5. The hot plate unit according to any one of claims 2 or
3, wherein the fluid includes air.

6. A hot plate unit comprising:

25 a hot plate including a heating element; and

a casing for supporting the hot plate, wherein the
casing includes a bottom portion facing the hot plate, a
first opened portion covered by the hot plate, and a second
opened portion formed in the bottom portion.
